PERSONAL STATEMENT

How to write an effective personal statement

Answer the following questions:

1. What are areas of your achievement (Academic, Social, Personal)
2. What are the contributory factors that have shaped the way you are today (parents, school, community, environment, others etc)
3. Have there been any incidents / people that have profoundly brought about an impact/ change in your life?
4. What motivates you?
5. What your personal strengths are - and your weaknesses
6. What are your aspirations in life (include short term goals and the big picture)
7. What exactly you are seeking to obtain (broad base skills and knowledge / specific area of expertise)
8. Why have you chosen the particular country and / or institution?
9. What you may be able to give back?

What you MUST do

- Get personal- use your own style, keep it simple and be clear in conveying what you want to communicate.
- Allow sufficient time for reflection and editing
- Ensure the personal statement is error free (grammar, spelling and sentence structure)
- Seek help /critical review of your essay.

What you MUST not do

- Copy others' statements (in part or in full). The Universities have software that can extract material used in earlier / other essays
- Use words that you have never used before or do not understand the meaning of. Remember this is not an English Vocabulary test. Also, it is very easy to match your TOEFL scores to your essay standard
- Exaggerate or give data that cannot be backed up
